Subject: Proposal to supply prototype mold
and [redacted]
in accordance with description and design
details supplied by your office.

25X1

Gentlemen:

Following our technical discussions at our plant in
Carbondale, Pennsylvania, on 7 November 1957 and subsequent
conferences, we are pleased to submit our proposal to supply
one (1) prototype mold to produce a design of [redacted]
together with ten (10) prototype samples
made from this mold, using Gensulite U, which is an expanded
unicellular plastic.

25X1:5X1

This vest will be equipped with the desired straps,
hooks, etc., to be used as outlined to us by your technical
representatives, with the equipment loaned to us.

We understand you will supply us with a mannequin to
a standard size, together with the samples and current molds
which have been used in experimental work in this program.

up from 15000 unit

We propose to undertake this work immediately upon
receipt of your approval of this proposal at a fixed price
of Four Thousand Seven Hundred and Fifty Dollars (\$4,750.00),
which includes one (1) mold, suitable for production of a
limited quantity of this vest, made from aluminum, and pro-
duce ten (10) prototype samples with certain modifications
relating to the straps and methods of attachment and size
for your test and evaluation. The total cost of the aluminum mold
for the design of the vest mold, including engineering time,
is Three Thousand Five Hundred Dollars (\$3,500.00), and we
are estimating the unit price of the ten (10) prototype vests
at One Hundred and Twenty-Five Dollars (\$125.00) each or a
total of One Thousand Two Hundred and Fifty Dollars (\$1,250.00)
for the samples, making a net total of Four Thousand Seven
Hundred and Fifty Dollars (\$4,750.00) for this proposal.

We believe, as has been discussed, with your representatives, this design will meet the basic requirements which you have outlined. We propose to carry through the design details as we understand them; however, if there are any minor modifications in contouring to the chest size, we would be pleased to receive your comments for consideration.

Delivery of the ten (10) prototype units can be made within thirty (30) days from receipt of your approval, under this contract.

We propose to submit initial samples for your approval prior to producing the final required ten (10) units, so that all minor characteristics can be taken care of at this time.

If there are any further questions, we will be pleased to receive and act on them immediately.

Very respectfully yours,

25X1

Assistant to the President
